PRESIDENT'S MESSAGE: DAN HOWARD

from the National Marine Sanctuaries and National Ocean Service west of Point Reyes, gave us a video presentation of the marine life from north of the Faralones to Bodega Bay. This is a managed area of the ocean known as the Cordel Bank, designated such in 1989 to study life under the sea and how we can effect the health of our plant and animal population by studying the various changes occurring in the

environment. Bob Aguilar who told me about the program led me to believe we would be hearing about oceanography and global warming and indeed we learned a little about our oceans the abundance of life in our sea, and heard a little about global warming and how the rising temperatures will eventually change what fish and plant life will be seen in the Bay Area waters. Dan was introduced by Bob Aguilar, his uncle with whom he has fished all over the west: Colorado, Montana, and California for the last fifty years. Dan grew up in Fairfax in Marin County, went to Humboldt State and now resides in Fairfield. Guests of Rotarians; Barry Charrietto, Amanda Radziszewski, and Josephina Bosch were introduced by Michael Heller. A.J. Nielson from Bank of America Mortgage also visited our club for the third or fourth time!!! Josephina told us about her ski trip to Lake Tahoe where she learned to snowboard and right now she is hard at it studying for her finals. For those of you who may not remember she is our inbound Rotary Exchange Student, staying with Jess and Theresa Whellen and the Hellers. She arrived here from Catamarca, Argentina in August and is a junior at Acalanes High School. Her parents are hosting a young lady from Florida this year too! Eddie Roodevelt from the Moraga Club is the district coordinator for the Rotary exchange program this year!!!

INTER-DISTRICT CONFERENCE; ROSSMOOR CLUB HOUSE - THE
