ISSUE 6

PRESIDENT'S MESSAGE: LAST WEEK

we heard from Edward Zeidan who has a firm named “Nerd 4 Rent” that performs miracles with previously misbehaving computers and software. They come to your home or office. Zeidan’s business card gives his job title as “Chief Technology Tamer.” His reputation around town among some of his customers bears out the verity of that title. He spoke about

viruses, spyware, phishing {(fish ́ing) The act of sending an e-mail to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.} and the general cussedness of the machines many of us fret behind. Interesting talk, and he solved problems for a number of us during the question time. We took a pass-the-hat collection to start a fund for Hurricane Katrina Relief. Out of pockets came \$209 immediately, and a couple of checks arrived later. Rotarians are springing into action. We are already in touch with the two Rotary Districts in the area devastated. This week our program will be Steve Cortese; he will be talking to us about developments in Lafayette. Steve is a good speaker and is always informative. Ed Seaby

TODAY'S SPEAKER: STEVE CORTESE
