PRESIDENT'S MESSAGE: LAST WEEK'S

program gave us all a lesson in how Lafayette got its start -- from the wagon trains coming across the Great Plains to the first settler's home on Happy Valley Rd., then moving the grain mill where it could get water power, the current center of our town. It was interesting to hear that one of the original

buildings, where the bicycle shop is now, still stands there today. It was also very interesting to learn there is a program where our town's third graders hear something about our history. We must thank the Lafayette Historical Society, Mary McCosker and Emily Haas for giving us such a great program.
